## WINE WITH RASPBERRY

This Raspberry Wine is a blend of raspberry and red wine. The red grape wine is comprised predominantly of Merlot. Ultimately the raspberry character is the most forward with the red grape wine following on the back palate. The combination of both flavor profiles offers a nice balance of the different fruits and their particular nuances they each share. This is a very pleasant dessert wine which will go with many desserts but I would strongly recommend a rich cheesecake with fresh berries or anything with the word chocolate in it! – *Matthew Meyer, Winemaker*
